

Nullify the UN, WHO, & WEF in Montana With HB 350

Legislation has been introduced in the Montana Legislature to nullify the United Nations (UN), World Health Organization (WHO), and World Economic Forum (WEF). ***It is imperative that legislators enact this bill and protect our God-given freedoms!***

House Bill No. 350 ([HB 350](#)) is sponsored by Representative Jedediah Hinkle (R-Belgrade) and 43 other legislators. It declares:

- (1) The world health organization, the united nations, and the world economic forum have no jurisdiction in this state. The state and its political subdivisions, including but not limited to any county, city, municipal corporation, consolidated city-county, school district, special improvement or taxing district, or other political subdivision or public corporation, or any entity created by agreement between two or more political subdivisions, may not be compelled to engage in the enforcement of, or any collaboration with the enforcement of, any requirements or mandates issued by the world health organization, the united nations, or the world economic forum.
- (2) The state and its political subdivisions may not expend public funds or allocate public resources for the enforcement of any requirement or mandates issued by the world health organization, the united nations, or the world economic forum.

The policies emanating from the UN, WHO, and WEF are antithetical to the American form of government. For example, the UN's [Agenda 21/2030](#) plan seeks [total control](#) and regimentation of the entire planet, and prominent examples of its implementation include the [global war on farmers](#), [carbon-capture pipelines](#), and the [transition toward "green" energy](#). The global body's upcoming "[Summit of the Future](#)" will also advocate [more power for the UN](#).

Furthermore, the WHO is [planning a major power grab](#) to allow it to impose draconian restrictions, such as vaccine passports and other “health” measures, at a global level. This comes in the form of a proposed global “[pandemic treaty](#)” and in possible [amendments](#) to the International Health Regulations (IHR). In addition to advancing medical tyranny, these changes would empower international bureaucracy [at the expense](#) of American sovereignty.

Article VI also states, “This Constitution, and the Laws of the United States *which shall be made in Pursuance thereof* ... shall be the supreme Law of the Land.” (Emphasis added.) State legislators are required to uphold and implement only those laws that are “made in Pursuance” to the Constitution. Any laws not “made in Pursuance thereof” are therefore *not* the supreme Law of the Land and, as such, state legislators are under no obligation to enforce or carry out their provisions. Instead, [they should interpose, or nullify](#), such laws within the boundaries of their state.

This stipulation applies to the treaty-making power. Treaties (including U.S. membership in the UN and WHO) [must also be subject to](#), and bound by, the limitations of the Constitution.

In a [letter](#) dated September 7, 1803, then-President Thomas Jefferson wrote, “I say the same as to the opinion of those who consider the grant of the treaty making power as boundless. If it is, then we have no Constitution.” This was further affirmed by the Supreme Court of the United States, in [Reid v. Covert](#) (1957).
