

Nullify the UN, WHO, & WEF in New Jersey With A4453

Legislation has been introduced in the New Jersey Legislature to nullify the United Nations (UN), World Health Organization (WHO), and World Economic Forum (WEF). ***It is imperative that legislators enact this bill and protect our God-given freedoms!***

Assembly Bill No. 4453 ([A4453](#)) is sponsored by John V. Azzariti (R-Saddle River), Gerry Scharfenberger (R-Middletown), and Dawn Fantasia (R-Franklin Borough).

If enacted, A4453 would prevent any policies or mandates from the UN, WHO, or WEF from being enforced in New Jersey. The bill declares:

- a. Notwithstanding any law, rule, or regulation to the contrary, the State of New Jersey, any department, board, commission, agency, authority, or political subdivision thereof, and any court of competent jurisdiction in the State of New Jersey, shall not apply, implement, or enforce, in whole or in part, any policy, rule, or regulation established by an international organization.
- b. As used in this section, "international organization" means any organization established by a multinational agreement or pursuant to international law. This shall include, but need not be limited to, the United Nations, the World Health Organization, and the World Economic Forum.

The policies emanating from the UN, WHO, and WEF are antithetical to the American form of government. For example, the UN's [Agenda 21/2030](#) plan seeks [total control](#) and regimentation of the entire planet, and prominent examples of its implementation include the [global war on farmers](#), [carbon-capture pipelines](#), and the [transition toward "green" energy](#). The global body's upcoming "[Summit of the Future](#)" will also advocate [more power for the UN](#).

Furthermore, the WHO is [planning a major power grab](#) to allow it to impose draconian restrictions, such as vaccine passports and other “health” measures, at a global level. This comes in the form of a proposed global “[pandemic treaty](#)” and in possible [amendments](#) to the International Health Regulations (IHR). In addition to advancing medical tyranny, these changes would empower international bureaucracy [at the expense](#) of American sovereignty.

A4453 is [firmly grounded](#) in the text of the U.S. Constitution. Specifically, [Article VI](#) binds state legislators — along with members of Congress and judges — to their oath to support the U.S. Constitution.

Article VI also states, “This Constitution, and the Laws of the United States *which shall be made in Pursuance thereof* ... shall be the supreme Law of the Land.” (Emphasis added.) State legislators are required to uphold and implement only those laws that are “made in Pursuance” to the Constitution. Any laws not “made in Pursuance thereof” are therefore *not* the supreme Law of the Land and, as such, state legislators are under no obligation to enforce or carry out their provisions. Instead, [they should interpose, or nullify](#), such laws within the boundaries of their state.

This stipulation applies to the treaty-making power. Treaties (including U.S. membership in the UN and WHO) [must also be subject to](#), and bound by, the limitations of the Constitution.

In a [letter](#) dated September 7, 1803, then-President Thomas Jefferson wrote, “I say the same as to the opinion of those who consider the grant of the treaty making power as boundless. If it is, then we have no Constitution.” This was further affirmed by the Supreme Court of the United States, in [Reid v. Covert](#) (1957).

Urge your state legislators to support A4453 and to push back against all other unconstitutional laws at every level of government.
