

# OUTLAW AGENDA 2030

## Outlaw Subversive Agenda 2030 Schemes

**URGENT:** State legislative sessions are already underway, and now is an excellent time to urge your state legislators to take action against the UN's collectivist Agenda 2030 program. State legislatures must follow the example of Tennessee, which [enacted](#) legislation ([SB 1147](#)) banning the implementation of multiple globalist UN schemes, including Agenda 21 and Agenda 2030, and banning government from working with pro-Agenda 2030 NGOs such as ICLEI. **Contact your state legislators, and urge them to enact similar legislation that strongly protects property rights and the U.S. Bill of Rights.**

Agenda 2030 is a major threat to liberty and is being implemented across the country — maybe even in your town or county. **Contact your state legislators and urge them to enact strong legislation banning all governmental involvement in Agenda 2030 or “sustainable development” schemes.**

[Agenda 2030](#), officially titled “the 2030 Agenda,” is a United Nations program based on the UN Local Agenda 21 program unveiled in 1992 and the UN Millennium Development Goals released in 2000. Under the guise of “sustainable development,” this plan [seeks totalitarian control](#) and regimentation of the entire planet, including the economy, our country, our lives, and our children. Agenda 2030 is divided into [17 Sustainable Development Goals](#), or SDGs, along with 169 specific “targets” to be imposed on humanity.

The SDGs [include](#) “universal health coverage,” “vaccines for all,” and “universal access to sexual and reproductive health-care services, including for family planning [i.e., abortion]” (Goal 3). It also advocates for socialist indoctrination of youth (Goal 4), global wealth redistribution (Goal 10), and radical actions to combat

alleged “climate change” (Goal 13). None of these goals are constitutional or even adhere to the spirit of the [U.S. Constitution](#) and the Founding Fathers.

Other prominent examples of Agenda 2030’s implementation include the [global war on farmers](#), [carbon-capture pipelines](#), and the transition toward “green” energy.

Although touted as “nonbinding,” Agenda 2030 is being implemented in communities across the U.S. via “soft law,” meaning that portions of the agenda are adopted into local, state, and federal laws, thus becoming legally binding. As a result, Americans are losing the ability as citizens to run their own communities through elected officials.

One of the main nongovernmental organizations (NGOs) pushing Agenda 2030 “sustainable development” at the local level is ICLEI — Local Governments for Sustainability. According to [ICLEI’s website](#), over 300 municipalities and counties in the U.S. are members of the organization. Other NGOs across the U.S. also are pushing Agenda 2030 on local governments.

Additionally, many local governments — including those outside of ICLEI — have “sustainable development” plans. These plans often don’t mention the UN or Agenda 2030, but they’re clear steps toward implementing this subversive scheme.

Accordingly, **state legislators must enact strong legislation completely preventing state or local government involvement in Agenda 2030 schemes.** This should include banning membership in ICLEI and similar organizations, along with prohibiting local governments or state agencies from independently implementing (or spending money on) initiatives that implement aspects of the UN’s 2030 Agenda.

**Such legislation is not hypothetical.** In 2012, Alabama [enacted](#) a strong law ([SB 477](#)) banning the implementation of the UN’s Agenda 21 (now Agenda 2030) in the state, and in 2023, Tennessee [enacted](#) a similar law ([SB 1147](#)) banning the implementation of multiple UN schemes. Multiple other state legislative chambers passed similar bans, while states have also [introduced and enacted](#) many strong nullification bills [throughout U.S. history](#).

**Contact your state legislators and urge them to completely ban state and local government involvement in Agenda 2030 and “sustainable development” schemes.**
