There's a saying in politics, "Nothing happens by accident. If it happens, you can bet it was planned that way". President Biden's record illustrates this. It's not stupidity and it's not an accident. Watch what he's doing.

Look at his policies on Afghanistan, oil, immigration and trillions of dollars spent on infrastructure. Each policy is giving up more of our sovereignty. President Biden is moving America toward a socialist then communist country under the banner of the United Nations. Join Arthur R. Thompson as he examines Biden's record and why he's doing it.
