Stopping the Greatest Threat to Humanity—the Conspiracy

Nothing sells freedom like tyranny. The tyranny leveled against Americans over the last two years has awakened millions who didn't think it could happen here. This episode of Freedom is the Cure focuses on the growing popularity of freedom and the need to ensure that Americans' passion is channeled in a way that aims at the root of the problem, the Conspiracy, the powerful international network working to destroy America and plunge the world into tyranny. Paul talks with JBS coordinators who work on the grassroots level about how to create long-lasting changes.
