

NEWS ALERT

USMCA *THE TRUE* INTENT

After House Speaker Pelosi's news conference on the United States Mexico Canada Agreement, representatives from the three countries met in Mexico to sign the updated agreement. While Pelosi, her working group, and other supporters of this agreement will positively spin all these changes, they won't tell you the true purpose of the agreement. And it's not about getting a better deal, either.

However, believe it or not, the President of Mexico has revealed the USMCA's true purpose on more than one occasion. Just after yesterday's signing ceremony, he said, "With development cooperation, which will be possible with this agreement, the unity of the Americas, the unity of our continent, the unity of all countries, the peoples of our America, the America that saw Abraham Lincoln born and of the America that saw Benito Juarez born, we have this agreement with North America, without turning our backs on our America."

Unity of our continent. The three North American countries are about as far apart in their governing systems as they could be. But after the USMCA, they will be much closer. The North American Union will be one step closer with the passage of the USMCA.

Please contact Congress now and let them know to stop the USMCA and save American independence.
