

NEWS ALERT

USMCA *IT'S GO* TIME!

This agreement will tie the hands of the American consumer, business owner, and to a large extent the federal government, as the agreement transfers accountability and control of its economy to hemispherical bureaucracy designed to integrate the three North American countries into a North American Union, like that of the European Union.

So think about it. Here we have socialist democrats shaping this agreement to play well with globalization, instead of protecting American sovereignty in order to economically integrate with socialist Canada and corrupt Mexico. Gee, what could go wrong?!

We're just learning about the Democratic changes and will be rolling out with more information in the coming days, so check in with us to stay on top of this. It appears Mexico and Canada are signing onto the changes today, and it seems Congress will try to ram this through before Dec. 20.

Please contact Congress now and let them know to stop the USMCA and save American independence.
